Art Unit: 1711

1. A response (to second nonfinal rejection of October 2004) has been filed on March 14, 2005.
2. Claims under examination are still 1-12.
3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
4. Claims 1-5 and 7-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Applicants' own disclosure ((a) on page 8, line 25 to page 9, line 7 of instant specification and (b) on page 2, lines 9-13) in view of Okamoto et al (US 4595394).
5. Claim 6 is rejected under 35 U.S.C. 103(a) as being unpatentable over Applicants' own disclosure (above) in view of Okamoto et al (US 4595394) as applied to claim 1 above, and further in view of Wold (US 5435954).

Please refer to items 6 & 7 of Office action of October 14, 2004 for these rejections.

6. Applicant's arguments filed March 14, 2005 have been fully considered but they are not persuasive.

On page 2 (of instant specification), the applicants disclose that resin compositions with colored short fibers contained therein are known and have been marketed. Submitted declaration has been fully considered. It presents valuable data as to how threne dyes provide superior heat discoloration resistance and weatherability. However, Okamoto in col. 3, lines 63-64 does teach this characteristic of threne dyes. Additionally instant claims do not encompass the properties covered by the declaration. The declaration is thus not probative to establish nonobviousness of instant claims.

Art Unit: 1711

Applicants' contention (on page 4 of above response) that claim 8 is separately patentable by virtue of the amount of dye of from 7 to 15%. " cannot be agreed with because it is obvious to vary such amount as required to produce the final product with desired appearance. Examiner did not purposely respond to this argument made by the applicants in their earlier response of June 22, 2004 because the prior art relied upon the rejection of claims 7-11 was withdrawn. There was no point in responding to arguments from the applicants against a withdrawn rejection.

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
